Alternate Formats: Persons with disabilities may request this information be prepared and supplied in alternate formats by calling the Washington State Department of Transportation ADA Accommodation Hotline collect 206-389-2839.

Persons with hearing impairments may access Washington State Telecommunications Relay Service (TTY) at 1-800-833-6388, or Tele-Braille at 1-800-833-6385, or Voice at 1-800-833-6384, and ask to be connected to 360-705-7097.

Foreword

WSDOT endeavors to provide safe and economical transportation for departmental personnel, in order for them to accomplish official state business in an effective manner.

Proper use and care of the state vehicles provided, coupled with observance of the rules contained in this handbook, will protect the department's public image; and ensure efficient and cost-effective operation of WSDOT vehicles.

For additional information or clarity on any aspect of this booklet, contact the WSDOT Fleet & Equipment Manager; whose address and phone number are reflected on page 3.

J.F. CONRAD
Assistant Secretary FOSSC

Equipment Superintendent (509) 575-2757
Safety Officer

Southwest Region

Equipment Superintendent (360) 905-2276
Safety Officer

General Rules

State owned and operated vehicles are under continual public scrutiny. Consequently, state employees are vulnerable to public perception and criticism. To minimize negative feedback, WSDOT operators will abide by the following rules:

1. Vehicles are to be used for official state business only. Misuse of state vehicles may result in employee termination.
 - Only personnel on official state business are authorized to ride in state vehicles.
 - Pets may not be transported in state cars
 - WMS office level managers may permit temporary or part-time employees to operate state vehicles to conduct official business.
2. Operators must have a valid Washington State drivers license in their possession.
3. Drive defensively, be courteous, and obey all traffic rules and regulations.
 - Do not exceed posted speed limits.
 - Certain to operate the vehicle at a safe speed, especially in cases of inclement weather, heavy traffic, or other road hazards. Be especially aware of the hazards of black ice, particularly on bridges and overpasses which tend to freeze before other roads
 - Keep a safe distance between vehicles.
 - DO NOT project offensive gestures or body language toward another vehicle or person in any driving situation.

Driver Responsibilities

1. All charges for traffic and parking violations; and towing or storage resulting from traffic or parking violations are the responsibility of the vehicle operator.
2. Operators are responsible for keeping vehicles clean (interior and exterior) and fueled. Trash and personal items will be removed at the conclusion of a trip; and the fuel tank will be filled if it is less than half full.
3. All mechanical defects will be reported to the appropriate OTEF repair shop at the earliest possible date.
4. Vehicles must be locked when left unattended. State property stolen from unlocked vehicles are the responsibility of the operator. Furthermore, WSDOT assumes NO responsibility for personal items stolen from unlocked vehicles.
5. WSDOT assumes the responsibility of keeping department-owned vehicles in good running order and making repairs resulting from normal wear. However, any repairs resulting from negligence, carelessness, or unauthorized use will be charged to the using organization or employee.

Service and Repairs

An OTEF vehicle repair facility is located at every WSDOT regional and area headquarters; and their operating hours are generally 6:30 AM until 4:00 PM Monday thru Friday. Regional Equipment Superintendent Names and phone numbers are reflected on page 3.

1. Regular preventive maintenance (PM) shall be scheduled and performed in accordance with the department's *Preventive Maintenance Services Manual*. A copy of this manual may be obtained from your regional Equipment Superintendent's office.
2. Non-emergency vehicle and equipment repairs will be accomplished at OTEF repair facilities; unless explicit permission to use a commercial facility is granted by the appropriate regional Equipment Superintendent.
 - a. Obtain name, phone number, vehicle make, model, license number, insurance company name and address, and address of the other vehicle driver and occupant(s) involved in the accident.
 - b. If possible, obtain names, phone, numbers, and addresses of witnesses to the accident.
3. Provide the other party with the "Blue" Claims Brochure; which should also be in the vehicle's glove compartment.

4. Be polite and helpful; but details of the accidents should be discussed only with the following:
 - a. Appropriate law enforcement officers
 - b. Appropriate state officials
 - c. DO NOT discuss details of the incident with the other party's attorney, insurance company's representative, or any third party that does not represent the state's interests. Please refer those requests to the Risk Management Office.
5. Within two business days, fill out a WSP-161 (Motor Vehicle Collision Report), if damage exceeds \$500 and/or if there is a personal injury.
 - a. Have your supervisor review the form
 - b. make distribution as indicated on the form. Claim forms will be submitted within two business days.

Fuel

1. All fuel consuming vehicles and equipment in the Operations Transportation Equipment Fund (OTEF) inventory are provided a departmental fuel card (dark green). Additionally, most light passenger carrying vehicles are provided with a commercial fuel card (Voyager). Both of these cards should be located in the vehicle's glove box. If they are not, contact the appropriate Equipment Superintendent.
2. In July 1998, all WSP fuel stations were assimilated by WSDOT; so, departmental fuel card can be used at refueling station at any WSDOT or WSP facility complex.
3. Operators will call the appropriate regional Equipment Superintendent for assistance or instructions when road breakdowns occur between 6:30 AM and 4:00 PM, Monday through Friday.
4. **Emergency** repairs occurring after WSDOT normal work hours may be accomplished at commercial facilities, without explicit permission from the Equipment Superintendent. "*Emergency*" is defined as an occurring malfunction that makes the vehicle non-operational; or places the vehicle in imminent danger of becoming non-operational.
 - a. Operators must inform the appropriate regional Equipment Superintendent, at the earliest possible date, of repairs accomplished at a commercial facility.
 - b. Services or repairs accomplished at commercial facilities, and determined by the Equipment Superintendent to be non-emergency, may be charged back to the employees organization.

Accident Reporting

All accidents involving a state vehicle, regardless of circumstances, must be reported to the regional or the Headquarters Safety Office as soon as possible after the accident. Naturally, you may also contact a WSDOT safety office for assistance at any time during the accident event. The department's Claims Information Pamphlet should also be in the vehicle's glove box compartment for additional information. If it is not; or if additional information or forms are needed, please contact the appropriate regional Safety Office (or Equipment Superintendent). Safety office phone numbers are reflected on page 3.

1. Actions to be taken in the event of any accident involving this vehicle:
 - a. STOP.
 - b. Render assistance to any injured person; being certain to provide only aid that you are qualified to give. If necessary, call a medic unit, ambulance, or doctor.
 - c. Call appropriate law enforcement officers and remain at the scene of the accident until they arrive, circumstances permitting.
3. In the event that a valid fuel card fails to activate a WSDOT automated dispensing pump, contact the nearest OTEF repair facility. Persons at those facilities have special "master" cards to provide assistance. OR use the provided commercial card, and report the WSDOT card failure at the earliest possible date.
4. The commercial fuel card may be used to purchase **only** regular unleaded fuel. Any other purchases charged on these cards will be billed back to the employees organization.
5. Replacement of lost, stolen, or broken fuel cards may be accomplished by contacting your regional Equipment Superintendent's Office; or the state Equipment Manager; whose address and phone is reflected in #4 above.
6. Other agencies may use WSDOT fueling facilities if a customer account is properly established; and WSDOT fuel cards are issued. For information on the procedures of establishing an account contact the:

OTEF
 Olympia, WA 98504
 Business Phone: (360) 705-7881
 FAX (360) 705-6818

Maps showing the locations of WSDOT refueling stations are found in this booklet, beginning on page 14.
